Virtual services to support remote working

 Live Friday Webinars (Free)

 Strategy Huddles

 One Step Ahead

 Virtual Experience Days

 Meet & Move Forward

Do you want to keep up with how COVID-19 is impacting the NHS and to understand what is going on behind the scenes?

Friday Webinars

- Every Friday at 2pm we will be offering a free of charge webinar, where NHS experts working in settings including ICP, CCG and PCNs will briefly present what is going on in their part of the NHS
- Real-world, first-hand insight, to give a unique perspective on the NHS challenges and response
- HCPs participate out of professional and intellectual curiosity, fitting webinars around their work commitments to ensure no impact on NHS services

REGISTER FOR THE
WEBINAR SERIES

Are you trying to understand what is changing within the NHS and how this will impact on your own strategy in the longer term?

Strategy Huddles

- We can facilitate, at short notice, virtual panel discussions to include our in-house NHS experts and senior stakeholders from Trust, PCN, CCG and ICP settings to discuss your own challenges at Leadership Team level
- Up to two hours to give sufficient time for an in-depth conversation about specific concerns you have about NHS structures, policy & strategy, and therapy-specific developments
- Real-world first-hand insight gives an unparalleled opportunity to explore the issues that will impact on your commercial strategy

Are you trying to develop your teams' knowledge and skill levels while they are grounded?

One Step Ahead

- Our One Step Ahead training sessions on the evolving NHS environment are delivered personally by an NHS expert, designed to reflect your product portfolio and to inform tactical improvement
- Developed with insight from our own Health Service Faculty to ensure depth and relevance of insight to your therapy or service area
- Under regular review to ensure sessions remain current within an ever-changing environment, where most online learning is already out of date

Are you trying to maintain your teams' NHS literacy and keep them engaged directly with NHS stakeholders?

Virtual Experience Days

- We can convene our excellent Experience Days remotely, where your team can engage with a broad audience of NHS stakeholders to better understand their therapy area
- An educational format to facilitate learning in a led environment, with the opportunity to explore the front-line barriers to implementing change in the NHS and in delivering high-quality care
- HCPs participate out of professional and intellectual curiosity, fitting contributions around their work commitments to ensure no impact on NHS services

Do you need to maintain momentum with strategy development and commercial understanding?

Meet & Move Forward

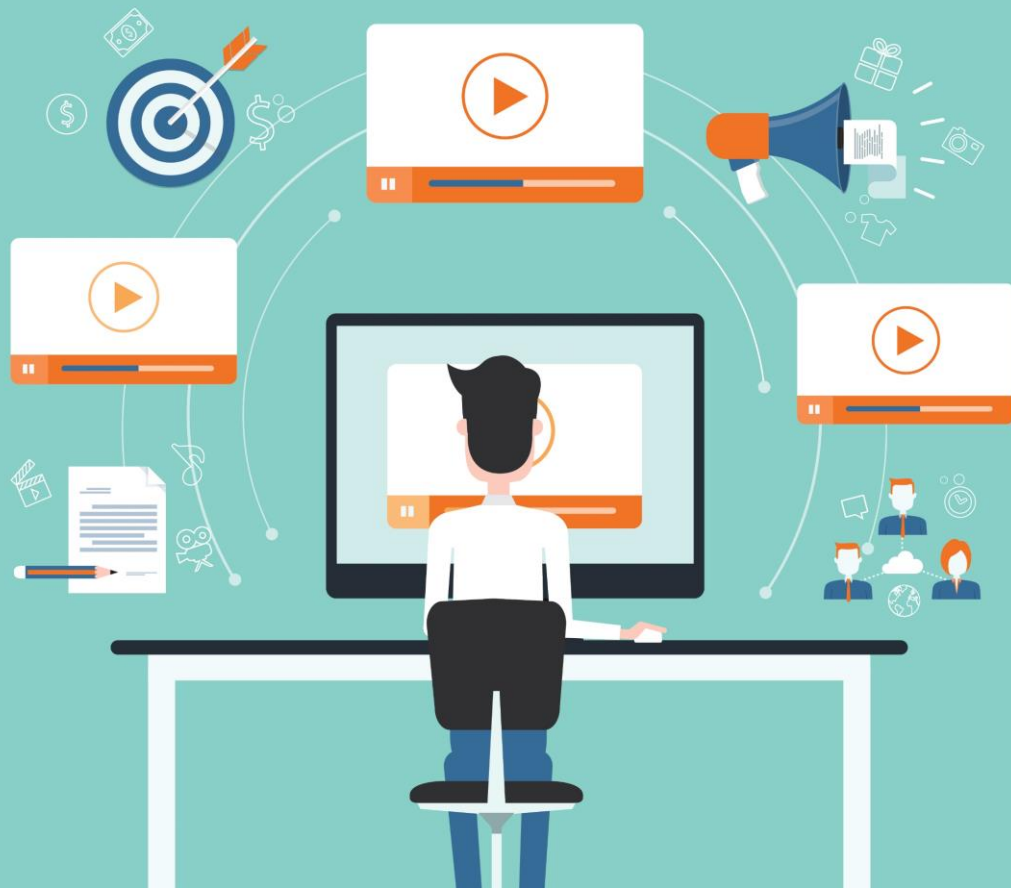

- Our Meet & Move Forward sessions bring together a multi-disciplinary group from within your therapy area to discuss pathway improvement and challenges
- Held online using our tried and trusted methodology based on Lean techniques, to deliver tangible outputs and action plans on the day
- HCPs participate out of professional and intellectual curiosity, fitting sessions around their work commitments to ensure no impact on NHS services
